

Stem Cell Research Forum on 21 May 2003

presented by the Genetic Support Council WA

Professor Alan Trounson held a speech on “Embryonic Stem Cell Research – Opportunities and Issues”

Professor Alan R. Harvey talked about “Cell Replacement in the Central Nervous System – Why do we need it and can we do it?”

Dr. Sandy Webb and Daphne Anderson's subject was "Regulation of Embryonic Stem Cell Research: One year after the COAG Decision of 5 April 2002"

Dr. John Fleming spoke on “Therapeutic and Scientific Imperatives – But what about the Common Good?”

After the five speakers had finished, a panel discussion was held.

Afternoon tea.
